

The New 988 Suicide Prevention Hotline

988 Hotline Fact Sheet

In our ongoing effort to keep employees up to date on new and current resources, REACH wants to make you aware of the new “988 suicide prevention hotline” that will now be available to the general public. Starting July 16, 2022, for assistance you can simply text or call the new “988” number and be referred to the National Suicide Prevention Lifeline. This is a national effort to support a growing need for suicidal and other mental health concerns. The 988 hotline will be managed by the Department of Health and Human Services, Substance Abuse and Mental Health Services Administration, and in partnership with the Department of Veterans. As always you can still contact REACH for crisis related mental health assistance as well as the 988 hotline.

REACH Employee Assistance Program
